PHARMACY DIRECTORY

There are thousands of retail pharmacies in your network. They include retail chains, local pharmacies, grocery stores and wholesale warehouse stores – all places where you may already shop. And some stores are open 24 hours.

Choose the retail pharmacy that's most convenient for you.

This is a list of retail pharmacy chains that participate in Cigna's National Pharmacy Network. Pharmacies are listed alphabetically by state. In addition to the chains shown here, Cigna has contracted with a number of independent pharmacies in each state. **This directory is updated regularly so it's important to know that this is not a complete list of the pharmacies in your plan's network.** Log in to the **myCigna®** App¹ or **myCigna.com®** and use the Price a Medication tool to find an in-network pharmacy near you. Or, go to **Cigna.com** and click on "Find a Doctor" to search for pharmacies.

Consider using our home delivery pharmacy.

Express Scripts® Pharmacy, our home delivery pharmacy, is a convenient option when you're taking a medication on a regular basis to treat an ongoing health condition.² With just a few simple clicks of your mobile phone, tablet or computer, your important medications will be on their way to your door (or location of your choice). To learn more, go to **Cigna.com/homedelivery**.

- ▶ **Easily order, manage and track your medications** on your phone or online
- ▶ Standard shipping at **no extra cost**³
- ▶ Fill up to a **90-day supply** at one time
- ▶ **Helpful pharmacists** available 24/7
- ▶ **Automatic refills** or refill reminders so you don't miss a dose
- ▶ **Flexible payment options** if you need help paying for your medications

3. Standard shipping costs are included as part of your prescription plan.

Para obtener ayuda en español llame al número en su tarjeta de Cigna.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care provider, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copay, coinsurance or deductible requirements. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.
